

BASICS OF HOME AUTOMATION

HOME SAFETY TIPS

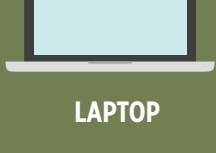

REMOTELY MANAGE YOUR HOME

Home Automation is not only used for monitoring home security systems, but can also help you keep an eye on loved ones, cut down on energy costs, and maintain peace of mind.

REMOTE HOME SECURITY ACCESS

Remote access puts you in control of your home security system at all times, day or night—from anywhere—allowing you to enjoy your busy lifestyle knowing your home is always safe.

REMOTELY ACCESS FROM

LAPTOP

SMARTPHONE

TABLET

BENEFITS OF REMOTE HOME SECURITY & CONTROL

ACCESS FROM ANYWHERE IN THE WORLD

24 HOUR MONITORING

SAVE MONEY & ENERGY

RECEIVE ALERTS & NOTIFICATIONS

LOCK OR UNLOCK DOORS REMOTELY

The ability to lock and unlock doors remotely means you can rest assured your doors are secure—even when you're not home—and safeguard against the threat of burglary.

BENEFITS OF OPERATING LOCKS

LET A SERVICE PERSON IN

DOUBLE CHECK DOORS ARE LOCKED

LET THE KIDS IN AFTER SCHOOL

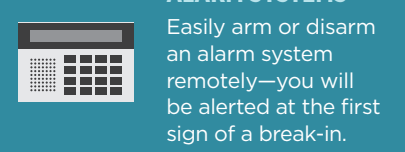

NO EXTRA KEYS FLOATING AROUND

Of all burglaries, **66%** ARE RESIDENTIAL BREAK-INS

Intruders enter from AN OPEN OR UNLOCKED DOOR OR WINDOW **30% OF THE TIME**

ALARM SYSTEMS Easily arm or disarm an alarm system remotely—you will be alerted at the first sign of a break-in.

SEE LIVE SECURITY VIDEO

Protection 1's home automation system allows you to see live security video. This not only secures your home from intruders, but lets you keep an eye out for your children, pets, and other family members.

HOW IT WORKS

1 CAMERA SETUP

Strategically set up interior and exterior cameras to monitor specific areas.

2 MOTION DETECTED

Video footage is captured and sensors are triggered when motion is detected.

3 ALERTS

You will receive text and email video notifications at the first sign of trouble.

4 SECURE ONLINE VIEWING

View up to six live-streaming video feeds or watch previously stored footage.

5 STORAGE SERVICES

Complete video surveillance storage services are provided on a secure server.

VIDEO REVIEW Review past events or current footage.

RECORDINGS Video is stored and kept for a period of time.

STORAGE Videos are stored off-site for extra protection.

STAY CONNECTED

Enjoy your busy lifestyle while being able to make sure your family and home are safe at any time.

CONTROL HOME LIGHTING

Turn lights on or off using your smartphone, tablet or PC. You can control outdoor and door lighting, program lights, and turn lights on/off. Control your lighting from miles away or from across the room, it is all up to you.

TYPES OF LIGHTING AUTOMATION

DIM THE LIGHTS

Dimming the lights will save energy, while still making it look like you are home.

TIMER

Control indoor and outdoor lighting by setting them up to turn on or off at designated times.

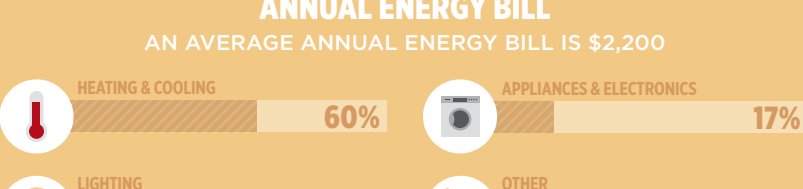

TURN LIGHTS ON/OFF

Forgot to turn off the lights or don't want to come home to a dark house? Control this remotely.

ANNUAL ENERGY BILL

AN AVERAGE ANNUAL ENERGY BILL IS \$2,200

ENERGY SAVER

SAVE \$255 ON YOUR ELECTRIC BILL annually by automating dimmers and timers.

CONTROL THERMOSTAT & HOME CLIMATE

Adjust and monitor your thermostat from anywhere, making it easy to keep the heat down (or the air conditioning up) during the day, then turn it back to a more comfortable level before you head home.

TYPES OF THERMOSTAT AUTOMATION

HEATING

Lower the heat during the day while you're away, then adjust it so it's perfect when you get home.

ENERGY SAVER

Just by lowering the heat 5°, you can **SAVE 20%** ON YOUR UTILITY BILL

COOLING

Turn up the air while you're gone, and adjust it so your home is cooled by the time you get home.

ENERGY SAVER

Each degree below 78° INCREASES YOUR ENERGY USE BY **4%**

The average family spends over **\$1,000** ON HEATING AND COOLING

29% ON HEATING

17% ON COOLING

AIR FILTERS Inspect, clean, or change air filters once a month. A dirty filter can increase energy costs and damage your equipment.
